VISION

Cybersecurity is increasingly becoming a true **enabler of value**, a factor of resilience, trust, and competitive advantage. An effective **Security Information Risk Governance** is the key to success.

MISSION

Enabling companies to **lead the governance of their cybersecurity** and supporting **regulatory conformity** by offering integrated and tailored solutions and services to quantify and mitigate risks arising from potential attacks.

INFORMATION SECURITY RISK GOVERNANCE

MANAGING RISK AND
COMPLIANCE FOR BUSINESS
CONTINUITY & RESILIENCE

IDENTIFY **OPERATIONAL AND THIRD-PARTY
RISK** (STRATEGIC INDICATORS)

ENABLE **COMPLIANCE** WITH POLICIES
& REGULATIONS (DORA, NIS2, GDPR,
ISO27001...)

OUR APPROACH

THE STEPS

CYBER RISK IDENTIFICATION

STRATEGIC INDICATORS

CYBER RISK RATING ASSESSMENT AND PRIORITIZATION

We help security and risk leaders take a risk-based, outcome-driven approach to managing the performance of their organization's cybersecurity program through broad measurement, continuous monitoring, detailed planning and forecasting in an effort to measurably reduce cyber risk.

CLOUD SECURITY RISK AND COMPLIANCE ANALYSIS

DISCOVERING unknown vulnerabilities, misconfigurations, malware, etc.
PRIORITISING the 1% of alerts that matter!
MONITORING AWS, Azure, Oracle and GCP estates with one platform

THIRD-PARTY RISK MANAGEMENT

A leading service for managing the Supply Chain Risk Assessment Process, offering functionality to implement, automate, manage and, monitor the entire transaction flow in order to assess all aspects of risk and compliance with current and future regulations (EBA, EIOPA, DORA, GDPR).

CYBER RISK QUANTIFICATION

Cyber Risk quantification can escalate cyber risk to business risk, bridging the gap between security and business, while providing objective data-driven metrics that indicate the performance of the organization's security program over time.

CONTINUOUS SECURITY VALIDATION BREACH & ATTACK SIMULATION

A continuous, fast and integrated security controls assessment service, apt to provide Security Officers and IT Leaders with comprehensive visibility and detailed reporting for a proactive approach aimed at hardening their infrastructures

DIGITAL RISK INVESTIGATION

Through our innovative cyberthreat intelligence technology, we scour the open, deep and dark web to deliver fresh, automated and actionable threat intelligence. This helps protect against financial fraud and data leaks whilst defending critical data and brand reputation, from the outside in.

CYBER RISK IDENTIFICATION

STRATEGIC INDICATORS

ENABLE COMPLIANCE WITH POLICIES & REGULATIONS

OUR IMPLEMENTATION

INTERNAL POLICIES AND PROCEDURES

Ensuring the organization follows its own internal standards, policies, and procedures, which are driven by risk management needs

RISK & COMPLIANCE MONITORING

Operational Risk Assessment, regular review of business practices, and internal controls audit due to assess if the organization is meeting regulatory and internal policy requirements

REPORTING & DOCUMENTATION

Keeping detailed records of compliance-related activities and ensuring that reports are filed with appropriate regulatory bodies when necessary
