INNOVATION KEY

AN EVENT PROMOTED, ORGANISED AND BACKED BY

The Italian Banking Association (www.abi.it) is a voluntary non-profit association that works to foster awareness of social values and conduct inspired by the principles of sound and proper entrepreneurship and the creation of a free, competitive market.

ABIServizi (www.abiservizi.it - www.abieventi.it) – ABI's multi-brand service company – is a benchmark for publishing, training, research and organisation of major events for the banking, financial and insurance sector and its main stakeholders.

Bancaforte.it (www.bancaforte.it) is the digital-information ecosystem of ABIServizi, the portal dedicated to innovation, payments, security and technologies for the financial sector and its partners, and a media partner of the events organised by ABIServizi and promoted by ABI. A dedicated website, social media, DEMs and newsletters also allow for multi-target dissemination of content.

THE INTERNATIONAL “MADE IN ITALY” EVENT ON INNOVATION IN THE PAYMENTS SECTOR

Since 2016, **Il Salone dei Pagamenti** has been an open **platform for innovation**, able to disseminate information, narrate experiences and present solutions. It is ready to welcome and liaise with the main players in the payments sector: institutions, banks, the financial sector, payment circuits, businesses, public administration, digital firms, startupper and fintech companies, professionals, the world of retail trade, young people and students.

BANCAFORTE
Innovation key

2026 THEMATIC AREAS

THE EVOLUTION OF EXPERIENCE

How experience is evolving

Payments are no longer just the conclusive moment of a process; they have now become a vital part of a relationship. They are experience, service, simplicity and customisation. This is the time when banks, merchants, fintech companies and platforms redefine the way people and businesses choose, purchase, pay and receive value. From omnichannel services to invisible payments and from AI to loyalty, experience becomes the place where technology and trust become closeness to customers.

Themes: customer journey, omnichannel services, unified commerce, AI, customisation, loyalty, embedded/invisible/contextual payments, merchant services, acceptance and data insight.

THE EVOLUTION OF ECOSYSTEMS

The evolution of ecosystems

The payments market no longer evolves vertically, it evolves via ecosystems. Banks, fintech and big tech companies, businesses, public administrations, merchants, platforms and technology providers move in value chains that are increasingly connected. This area narrates the new competition - and cooperation - for customer interface, data, integrated services and business models. This is the space where payments become industry, platform, partnership and growth.

Themes: platforms, wallets, super apps, embedded finance, open finance, new business models, partnerships, corporate payments, PA, B2B, sector verticalisation, sustainability and value chain reconfiguration.

THE EVOLUTION OF MONEY & INFRASTRUCTURE

The evolution of money and infrastructure

Money takes on a new shape, gains speed and changes language. And with it, the infrastructures that make everything possible change too: circuits, rails, settlement models, interoperability, instant payments, cross-border payments, the digital euro, stablecoins and tokenised deposits. This area recounts the new strategic payments worksite: not just instruments, but a whole architecture of sovereignty, efficiency and innovation on which to build the future of the digital economy.

Themes: the digital euro, CBDC, stablecoins, tokenised deposits, programmable money, instant payments, A2A, payment rails, settlement, interoperability, cross-border and European payment sovereignty.

THE EVOLUTION OF TRUST

How trust is evolving

In the new digital ecosystem, trust is more than just necessary. It is an infrastructure to be designed, protected and grown. Regulation, digital identity, authentication, cybersecurity, anti-fraud techniques, AML, operational resilience and data governance have become enabling conditions for innovation. This area explains how security and compliance can turn limits into competitive levers, strengthening the role of banks as reliability guarantors across the market.

Themes: PSD3/PSR, AI Act, digital identity, authentication, data governance, cybersecurity, fraud prevention, AML, financial crime, operational resilience and risk management.

AGORÀ DEL FUTURO

In collaboration with
StartupItalia

The economy races at the speed of an algorithm, and the field where competition plays out is increasingly based on our ability to understand the shifting circumstances. Digital payments are not just a question of technology; they encapsulate the way that we approach and handle consumption, relationships, trust and security. During the latest edition of the Agora of the Future, we will find out what role institutions, banks and fintech companies occupy in this fast-paced transformation. Because, today more than ever, the future of finance coincides with the future of the people.

Themes: **Artificial Intelligence, cybersecurity, digital identity, instant payments, the digital euro, stablecoins, cryptocurrencies, the open ecosystem & fintech innovation and startups**

STAY FINTECH, STAY TECH

In collaboration with
Fintech District

The new stage and the new exhibition area dedicated to internationalisation and innovation where fintech evolves beyond the concept of "fin" and technology belongs to us all.

Themes: **the new frontiers of innovation, open innovation & fintech, artificial intelligence, embedded finance, B2B networking, cooperation and the future, internationalisation, investments**

Powered by Agorà del Futuro

DIGITAL MARKETING AND INTEGRATED COMMUNICATION OBSERVATORY

Closing Event

In the new digital ecosystem, marketing and communication are becoming strategic pillars of the relationship between businesses and customers. The closing event of the Digital Marketing and Integrated Communication Observatory explores how data, AI, platforms and content are rewriting the rules governing trust and brand presence. From evolving customer journeys to the convergence of the physical and digital worlds, and from communities to new forms of communication, the Observatory explains how to build meaningful and consistent relationships in a context where value and engagement develop over time and across multiple touchpoints.

Themes: **AI and marketing automation, hybrid customer journeys, data and new metrics, physical-digital integration, platforms and communities, creator economy, social media and recommendations, brands and reputation, content and storytelling**

2026 Observatory appointments:

- **17 September**
- **13 and 14 October**

For further information about the Observatory, please email abiaderentisocial@abi.it

TERRAZZA DEI TALENTI

The Evolution of Human Potential
Skills, culture and new languages of finance

In an ecosystem that evolves at the speed of technology, the true distinguishing factor remains the human ability to interpret change, guide it and transform it into value. Terrazza dei Talenti is the area of the Salone dedicated to the people who make Payvolution possible: professionals, young talents, creators, innovators, communicators, educators, managers and the new generations. Here, the future of payments meets the future of skills. Not just upskilling and reskilling, but new ways of thinking, cooperating, communicating and building trust in the digital economy. From the languages of AI to financial culture, from inclusive leadership to new working models, from outreach to digital content, the Terrazza dei Talenti explores the evolution of the human being within the context of technological evolution. Because every technological transformation only becomes a reality when it encounters people capable of imagining it, understanding it and guiding it.

Themes: **Future skills, upskilling & reskilling, AI literacy and new work languages, financial and digital culture, inclusive leadership and organisational culture, talents and new professionals, content creation, community e dissemination, young generations and the future of work, and human-machine collaboration**

BANCAFORTE
Innovation key

ALLIANZ MICO

The Allianz MiCo, **Europe's largest congress centre**, has always played host to the Salone dei Pagamenti.

Since the last edition, **the Salone dei Pagamenti has tripled the amount of space** made available to Partners and Participants. It has extended the area and now occupies **levels 0, 1 and 2** of the **South Wing** of the congress centre.

Level 0, the heart of innovation

A visually arresting **exhibition area of over 10,000 sq.m.** designed to showcase exhibitors' stalls to the full. Here bespoke stands and experiential areas designed and implemented by Partners come to life, creating a dynamic, immersive and extremely impactful environment.

Level 1, reception area and meeting rooms

The entrance to the Salone with a visitor-friendly intuitive traffic-flow layout featuring an accreditation zone, two wardrobes and several meeting rooms available for Partners.

Level 2, contents and vision

The floor dedicated to our content-packed Salone. The prestigious **Gold Room** accommodates the plenary sessions while the **Brown** and **Amber Rooms** simultaneously take in about **1,800 attendees** during the parallel sessions and Partner workshops. This floor also includes a **Café** and other small but welcoming **meeting rooms**.

Partners will also be able to use their own brand to **customise various common areas** of levels 0, 1 and 2 of the Allianz MiCo occupied by Il Salone dei Pagamenti. These will be visible to all participants.

The entrance to Il Salone dei Pagamenti is at (Gate 1) and in Viale Eginardo (Gate 2).

ALLIANZ MICO: SOUTH WING > Level +1

ACCREDITATION & THE TERRACE OF TALENTS | LEVEL 1

Accreditation Area & Wardrobe

SALONE 2026

BANCAFORTE'S ACTIVITIES FOR PARTNERS

Organized by

ABISERVIZI ABI
EVENTI

Media Partner

BANCAFORTE
Innovation key

BANCAFORTE

Bancaforte is the media platform of ABIServizi and **Media Partner** of all **ABIEventi** initiatives. It lies at the core of an information ecosystem that narrates and showcases content and key players through articles, video interviews, newsletters, event specials, columns and social-network posts. In addition to the bancaforte.it portal is **Bancaforte TV, the digital TV channel that gives voice to the banks and companies with dedicated journalistic services.**

During Il Salone dei Pagamenti, we offer Partners **further promotional activities** in addition to those already included in the various sponsorship packages for the event.

In particular, we have come up with **three different media kits**: the first one is linked to your participation as a Partner of the Salone; the second provides journalistic activities that can also refer to topics other than those dealt with during the three days of the event. They must be used by March 31, 2026. The third kit relates to the enhancement of the content of your workshop (where provided under the sponsorship package purchased).

BANCAFORTE MEDIA KITS FOR PARTNERS

“SALONE 2026 SPECIAL” MEDIA KIT

- **1 written interview/article (4,000 characters)** by the Bancaforte editorial staff, published in the Il Salone dei Pagamenti Special on Bancaforte.it (post-event)
- **1 video interview** by the Bancaforte editorial staff, published in the Il Salone dei Pagamenti Special on Bancaforte.it (to be produced on-site)
- **1 relaunch of the video interview** on Bancaforte.it, in an Il Salone dei Pagamenti Special Newsletter (during the Salone or post-event)
- **1 relaunch of the written interview/article** on Bancaforte.it, on a Salone dei Pagamenti Special Newsletter (post-event)
- **1 skin on Bancaforte.it** online thirty days after publication date
- **1 post dedicated to the Partner** on ABIEventi's LinkedIn pages and/or those of Il Salone dei Pagamenti and/or Bancaforte

Offer reserved for Salone Partners: € 4,000

2026-2027 MEDIA KIT RESERVED FOR THE SALONE 2026 PARTNERS
